Cherish your special moment

Santa Maria Assunta Church in Positano.

Take your vows in the unique church of Santa Maria Assunta, the perfect romantic ambience that every bride and groom could wish for. The church is located in the center of Positano, in the small Flavio Gioia square. With its decorative, colourful, dome of Vietri majolica tiles, the church is a typical example of the architecture found in this beautiful area.

The church is decorated with stucco, and gold ornamentation. Inside there is a collection of important works of art, like the "Circoncisione" by Fabrizio Santafede (from the end of '600), and the famous Byzantine wooden panel, depicting the Virgin Mary and Her Child. The town's name Positano which means "put it there" in latin, derives from the story of this panel.
